

# God's Phone Number

By: Clay Barner

**GOD**

I am amazed at the technology that brought us the cell phone. That little invention that came into being a few short decades ago can now be used for any number of things. In my Bible class, people pull out their phones and can access the complete Bible in a matter of a few seconds. You can use it as a G.P.S. Enabling you to find various locations. You can get the local weather report and even access your checking account. It appears you can do just anything with it. You can even be connected to whomever 24/7. We have definitely come a long way since the brick.

As important as it is, to be connected (that's short for being able to be found any day at any time, by anyone you may or may not know), it is far more important we stay connected (better, anchored) with God. I hope people recognize that staying in contact with Him is the most important activity in life.

Communicating regularly with God keeps us grounded and enables us to keep priorities straight. One young girl said she had God's phone number. When asked what it was she said Jeremiah 33:3 "Call to me and I will answer you and I will tell you great and mighty things which you do not know." Have you called Him lately? Come worship with us. Everyone is welcome here.
